Technical Data Sheet

NALINDO Dishwashing Liquid

Dishwashing liquid for glasses, dishes and pots. For radiant freshness.

- Crystal Clear Ingredient Declaration (www.biofa.de)
- Made from natural raw materials
- Concentrate

NTERIOR

- Biodegradable
- Dirt- and grease-removing
- Particularly skin-friendly
- Without chemical preservatives
- Alkali and phosphate-free

Properties:

NALINDO Dishwashing Liquid is a very economical, skin-friendly concentrate for gentle cleaning of glass, pots and dishes. It consists of natural raw materials, is alkali and phosphate-free, biodegradable and without chemical preservatives.

The addition of lecithin cares for the hands and prevents the skin from drying out.

The raw washing materials used (surfactants from vegetable fats) have a very good dirt and grease dissolving capacity and give the dishes a beautiful shine.

Ingredients:

Water, anionic and amphoteric surfactant from coconut fat 5-15%, soya lecithin, citral, sodium chloride (table salt), silver sulphate.

Application:

Depending on the water hardness and degree of soiling of the dishes, 1-2 squirts per approx. 5 I of water.

Storage:

Keep cool, protect against frost, and store properly sealed.

Container:

1 | PE/PP Plastic bottle 5 | PE/PP Plastic canister
