## NALINDO Washing up Liquid

### Item Number 4053

The plant-based formula of our NALINDO Washing up Liquid with its excellent cleaning agents cleans and degreases powerfully and ensures shiny dishes. NALINDO is a highly concentrated dishwashing detergent for many washes.

It is pH-neutral and contains no alcohol. This and GMO-free soya lecithin in the product protect hands from drying out.

## NASEDA Wool Detergent

### Item Number 4056

Washing wool, silk, cashmere or other delicate textiles by hand - we recommend our BIOFA NASEDA wool detergent for this.

NASEDA wool detergent is a special detergent that cleans delicate textiles particularly gently. It is suitable for cleaning wool, silk, down, natural fibres and hemp. With BIOFA wool detergent, you are not only doing something good for your delicate laundry, but also for your health and the environment.

NASEDA wool detergent differs from „normal“ wool detergents in many ways - it contains no bleaching agents or optical brighteners and is free from fabric softeners and phosphates. When used, NASEDA creates a pH-neutral, skin-friendly suds solution and is formulated to create a particularly fine foam that easily gets beloved items clean and protects them from excessive wear.

## Glass Cleaner

### Item Number 4058

For windows and mirrors, the BIOFA glass cleaner creates a clear view - so you can see yourself reflected in the shiny surfaces without toxic ingredients. This cleaner leaves surfaces sparkling and the environment clean.

The glass cleaner from BIOFA removes streaks and stains not only on glass surfaces, but also on plastic and tiles. It is the perfect cleaning agent when it comes to dirty and greasy residues on surfaces.

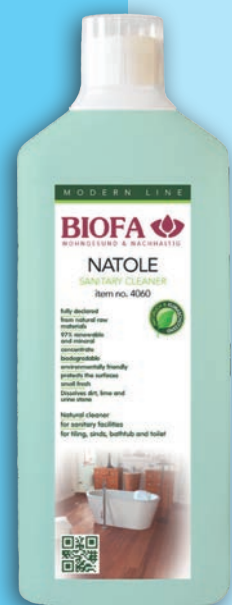

## NATOLE Sanitary Cleaner

### Item Number 4060

Nothing is as pleasant as a clean and hygienic bathroom. With the sustainable NATOLE sanitary cleaner from BIOFA, you can create optimum conditions for an oasis of well-being. Its fresh fragrance and effective stain removal guarantee ensure cleanliness and a good mood!

NATOLE is a natural and super-powerful cleaner. It dissolves dirt, lime-scale and urine scale in a powerful but environmentally friendly way. The powerful concentrate ensures fresh cleanliness in the bathroom and toilet and is completely biodegradable.

NATOLE proves its worth wherever stubborn dirt has accumulated, especially for bathroom taps, washbasins, bidets and toilets, wall and floor tiles, showers and baths.

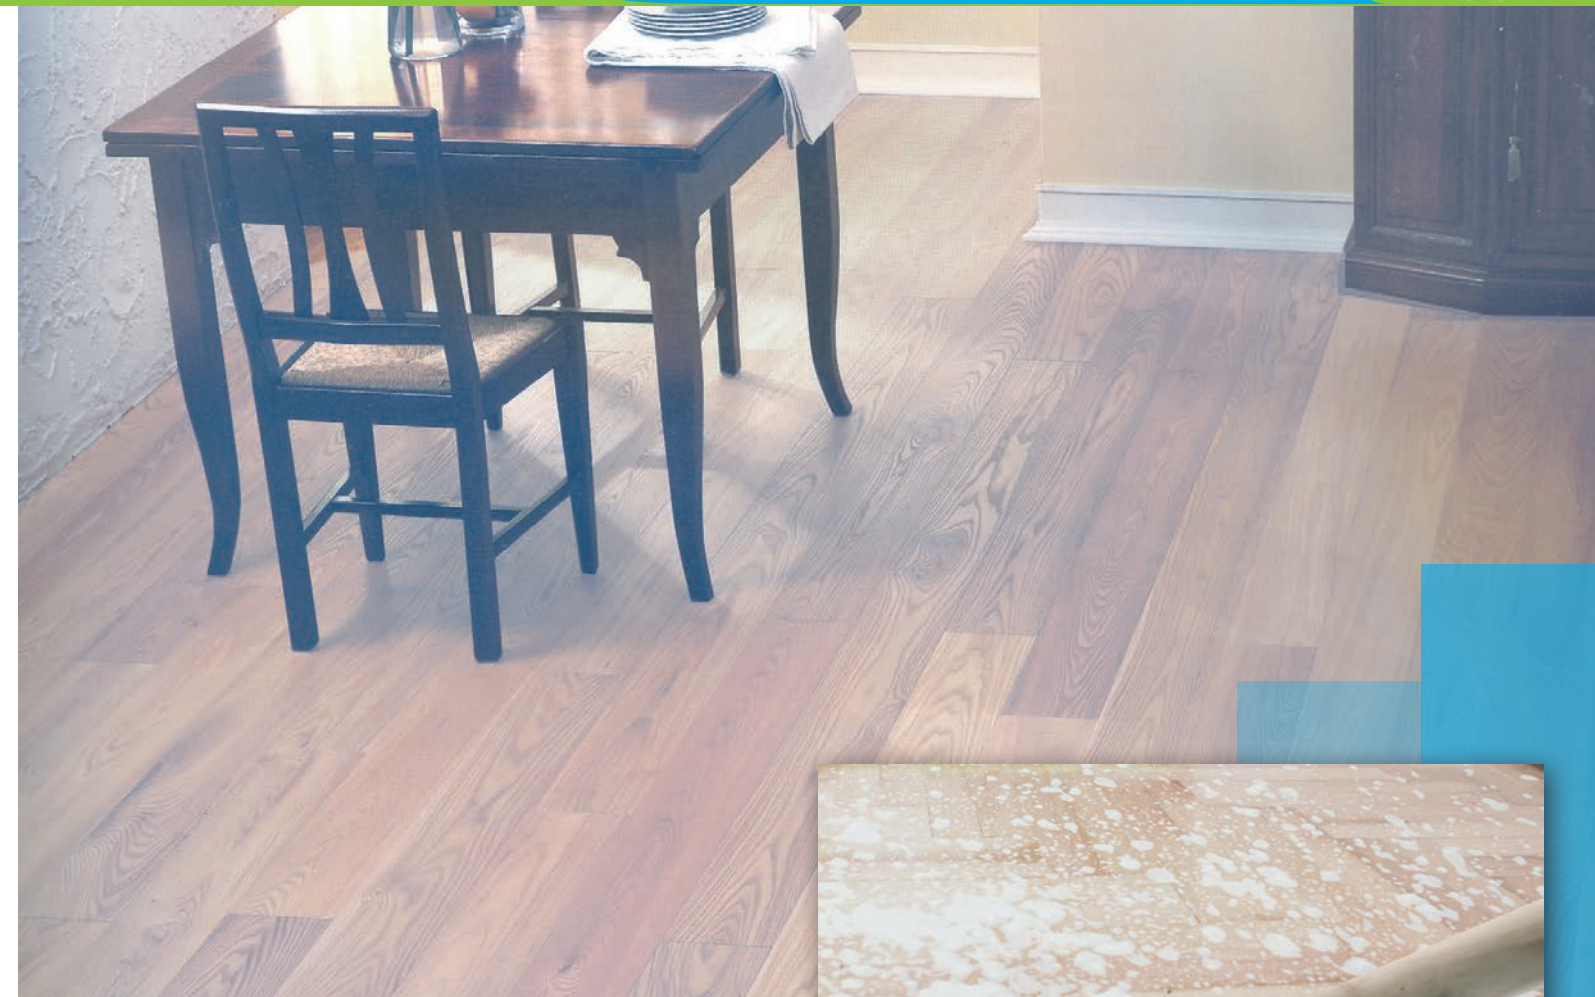

## NACASA Universal Cleaner Item Number 4010 and BIOFA Household Cleaner Spray Item Number 4020

NACASA is a neutral, gentle and very effective cleaner that can be used on all surfaces, including wood, cork and linoleum, as well as plastic, tiles, stone, enamel and metal. It is particularly suitable for floors that have been treated with BIOFA products (oils, waxes and varnishes). The substances it contains clean and care for the floor surface and keep it fresh and friendly.

NACASA is particularly skin-friendly and biodegradable. It contains no chemical preservatives and is free from chlorine, ammonia and phosphates. This highly concentrated cleaner should be diluted for use.

Alternatively, BIOFA offers a ready-to-use version, the BIOFA Household Cleaner Spray 4020 in a practical spray bottle.

## NAPONA Intensive Cleaner Item Number 2090

NAPONA is used for basic cleaning and for removing heavy soiling and old wax coatings on wooden and cork parquet wood and cork parquet, linoleum floors, tiles, natural stone floors etc.

It is a particularly skin-friendly and biodegradable liquid soap liquid soap made from natural raw materials.

NAPONA Basic Cleaner is a strong concentrate that can be used for cleaning depending on should be diluted depending on the type of wood and degree of soiling.

## Wax Care Spray

### Item Number 4030

BIOFA Wax Care consists of natural raw materials such as carnauba wax and is recommended for the basic and maintenance care of oiled, waxed and varnished wooden and cork floors, whitewashed wooden subfloors, linoleum, vinyl and laminate floors, stone floors and furniture surfaces. It has been successfully tested for compatibility on 28 different surfaces by the Fresenius Institute.

The wax care spray cares for and protects surfaces against dirt and mechanical abrasion and produces a silky glossy surface after a short drying time. The surface to be treated is refreshed, diffusible and dirt-repellent.

To increase the gloss level of the surface, the surface can be polished by machine after drying.

## NAPLANA Care Emulsion

### Item Number 2085

NAPLANA Care Emulsion has a high carnauba wax content and is used for the basic and maintenance care of varnished, waxed and oiled floors, furniture surfaces etc. It is also suitable for smooth leather and other surfaces. It is also suitable for smooth leather and other surfaces.

NAPLANA protects against dirt and mechanical abrasion. The treated surfaces are refreshed, diffusible and dirt-repellent. Regular care significantly extends the life of the surface.

This care emulsion produces a silky gloss surface after a short drying time. To achieve a higher gloss level, NAPLANA 2085 can be polished by machine after drying.

## NAPLANA Plus Care Emulsion

### Item Number 2086

NAPLANA Plus Care Emulsion has the same properties as NAPLANA Care Emulsion 2085, but gives the surface an additional anti-slip effect. Both products are biodegradable.
